Memorandum In Support of Emergency Motion To Reconsider Preliminary Injunction

“The end of the institution, maintenance, and administration of government, is to secure the existence of the body politic, to protect it, and to furnish the individuals who compose it with the power of enjoying in safety and tranquility their natural rights, and the blessings of life: and whenever these great objects are not obtained, the people have a right to alter the government, and to take measures necessary for their safety, prosperity and happiness.” Preamble of the Massachusetts Constitution

Argument

Honestly I am not able to think clearly enough to follow the procedures perfectly so I ask that you give a little bit of leniency with format. As Exhibit A shows I have Adjustment Disorder and

to protect it, and to furnish the

Aidan Kearneys actions are the identified stressor. Adjustment disorder causes work inhibition, suicidal thoughts, and anxiety. I have not talked to any of my family since the harassment got intense in November. I was supposed to start a Job in November but his threat made it impossible for me to start it. If Aidan's articles get taken down and the harassment stops, I will be a healthy individual with a six figure income and a genius IQ. If his harassment continues the condition will likely become PTSD, and I will be on Social Security Disability for the rest of my life. Also this court will never discover the truth of what actually happened. The Police and prosecutors think that it's your job to protect me in court, and seem to have unconditional support for Aidan Kearney and his blog. I will file a private criminal complaint soon, and if I am not protected according to the standing laws I will utilize the first paragraph of the Massachusetts Constitution.

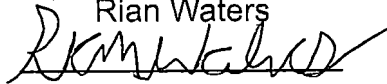

CONCLUSION:

A preliminary injunction should be issued to protect my constitutional rights, and so this court can discover the truth of the matter.

truth of what actually happened
